1 Sales & CRM

ITEMS 1 TO 10

- | | | |
|----|--|------------|
| 01 | Score and rank your open leads by likelihood to close | MCP |
| 02 | Draft personalized follow-up emails for every stalled opportunity | MCP |
| 03 | Summarize a customer's full history before a call in 30 seconds | MCP |
| 04 | Turn meeting notes into a quote with the right products and quantities | MCP |
| 05 | Find duplicate customers and merge them safely | MCP |
| 06 | Build a pipeline report showing why deals are lost | MCP |
| 07 | Write product descriptions for quotes and sales orders in bulk | Claude |
| 08 | Auto-assign incoming leads to salespeople by territory or industry | MCP |
| 09 | Post a lead summary and next steps right into the chatter | MCP |
| 10 | Create a customer-facing quote request form that lands in CRM | Full Stack |

2 Purchasing & Inventory

ITEMS 11 TO 20

- | | | |
|----|---|------------|
| 11 | Suggest reordering rules from your actual sales history | MCP |
| 12 | Spot slow-moving and dead stock worth clearing out | MCP |
| 13 | Read a vendor PDF quote and turn it into an RFQ | MCP |
| 14 | Compare vendor pricing across past purchase orders | MCP |
| 15 | Find negative stock and explain what caused it | MCP |
| 16 | Clean up product categories and units of measure | MCP |
| 17 | Build vendor pricelists from a supplier's price sheet | MCP |
| 18 | Flag late vendor deliveries and draft the follow-up email | MCP |
| 19 | Explain why a product's cost or valuation looks wrong | Claude |
| 20 | Build a mobile receiving app for your warehouse team | Full Stack |

3 Manufacturing

ITEMS 21 TO 30

- | | | |
|----|--|------------|
| 21 | Build bills of materials from an engineering spreadsheet | MCP |
| 22 | Explode a parts list into components, sub-assemblies, and operations | MCP |
| 23 | Find BOMs with missing or inactive components | MCP |
| 24 | Estimate true product cost from BOM plus labor | MCP |
| 25 | Draft work center instructions for each operation | Claude |
| 26 | Plan production against open sales orders and stock | MCP |
| 27 | Create product variants and attributes from a catalog | MCP |
| 28 | Analyze scrap and rework to find your problem products | MCP |
| 29 | Build a shop floor status board for the team | Full Stack |
| 30 | Create a custom quoting configurator for engineered products | Full Stack |

4 Accounting & Finance

ITEMS 31 TO 40

- | | | |
|----|---|--------|
| 31 | Explain any journal entry in plain English | Claude |
| 32 | Find unreconciled items and suggest what they match | MCP |
| 33 | Spot invoices posted to the wrong account | MCP |
| 34 | Clean up your inventory interim accounts | MCP |
| 35 | Build an aged receivables list with collection email drafts | MCP |
| 36 | Summarize monthly P&L changes and what drove them | MCP |
| 37 | Prepare bank statement files for clean import | Claude |
| 38 | Draft a month-end close checklist for your business | Claude |
| 39 | Review your chart of accounts for duplicates and gaps | MCP |
| 40 | Build a simple cash forecast from open invoices and bills | MCP |

5 Data Imports & Cleanup

ITEMS 41 TO 50

- | | | |
|----|--|--------|
| 41 | Turn a messy customer spreadsheet into an Odoo-ready import file | Claude |
| 42 | Migrate customers, vendors, and products from QuickBooks or Sage | MCP |
| 43 | Import products with variants, prices, and images | MCP |
| 44 | Extract line items from PDF invoices for import | Claude |
| 45 | Standardize addresses, phone numbers, and country codes | MCP |
| 46 | Find and fix records with missing required data | MCP |
| 47 | Map old system fields to the right Odoo fields | Claude |
| 48 | Archive stale records you no longer need | MCP |
| 49 | Import opening balances and open AR/AP | MCP |
| 50 | Validate an import file before it ever touches Odoo | Claude |

6 Customizing Odoo

ITEMS 51 TO 60

- | | | |
|----|---|-------------|
| 51 | Add custom fields to any form without Studio | MCP |
| 52 | Rearrange and simplify form views for your team | MCP |
| 53 | Add smart buttons that jump to related records | MCP |
| 54 | Create server actions that update records in one click | MCP |
| 55 | Build automation rules that trigger on create or update | MCP |
| 56 | Add computed fields like margin or days overdue | MCP |
| 57 | Create custom models to track anything Odoo doesn't | MCP |
| 58 | Add validation rules that stop bad data at entry | MCP |
| 59 | Hide fields and menus users don't need | MCP |
| 60 | Build full custom modules for Odoo.sh or on-premise | Claude Code |

7 Reports & Documents

ITEMS 61 TO 70

- | | | |
|----|---|------------|
| 61 | Redesign your quote and invoice PDFs | MCP |
| 62 | Add custom fields and terms to printed documents | MCP |
| 63 | Build pivot reports and dashboards for any team | MCP |
| 64 | Answer "how much did we sell of X last quarter" instantly | MCP |
| 65 | Create a weekly KPI summary emailed to managers | MCP |
